SMART GROUND team's corner

SMART GROUND Team is pleased to welcome you to the 5th issue of SMART GROUND Newsletter!

SMART GROUND project has reached its end.

This last issue intends to keep you updated about the final results achieved. Scroll down and find out more!

▶ FINAL EVENT

OVAM – Public Waste Agency of Flanders – held SMART GROUND final event last 07 February. The event co-organized by **COCOON** and **RAWFILL** - two Interreg projects - both focused on raw materials provided an overview and progress made to date on the 3 EU landfill mining funded projects.

During the event, chaired by Dr. Stuart Wagland from Cranfield University, tools to assess the suitability and feasibility of landfill mining; recovery methods; approaches and pilot studies were presented. It was also the occasion to showcase **SMART GROUND platform!**

▶ RESULTS

If you want to start an ELFM (Enhanced Landfill Mining) project and you need information to put this into practice, **SMART GROUND Toolkits** can help you!

SMART GROUND Decision Support Tools (DST) for Municipal Solid Waste and for Extractive Waste streams have been developed. The tools help you to run a Cost Benefit Analysis (CBA) for different ELFM scenarios.
